1009	Twin Tec Adjustable Ignition Module, 04-06 Sportster/Twin cam single 12 pin Because the the 1275 brings more compression and a more efficient chamber, the burn speeds considerably, necessitating less timing advance than stock. However, the timing is not adjustable on an 04-06 model. The solution is an aftermarket ignition module. The above is the best one we've come across. Set it on initial 2, slope 0, and your motor will be happy.	1	358.00	358.00T

27794-08	In addition to addressing ignition timing with the module, you also need to increase fuel delivery when doing a conversion. The above jets should make a good starting point. In addition to changing these jets, we recommend you access the idle mixture screw, on the underside of the carb near the outlet, and set it at 3 turns out from lightly seated. 10R12X Spark Plug These are the spark plugs we specify for the engine kit	2	5.95	11.90T
